

## **NAV08 Presenter Biography:**

Name of Author/Presenter: **Stuart D. Smith** Title/Grade **Mr.**

Present Post: **Senior Applications Engineer**

Company/Institute: **Spirent Communications PLC**

Professional CV:

Stuart Smith obtained an Honours Degree in Electronic and Communications Engineering from the University of Plymouth, England, and joined Spirent Communications in 1999 as an RF Design Engineer, with responsibility for several hardware designs across Spirent's range of GNSS simulation test equipment. He has also taken engineering knowledge into the sales organisation, as a Sales Engineer, providing customer training for Spirent GNSS test products. He is currently a Senior Applications Engineer in the Client Services Team, and is presently developing Spirent's Test Services business, which aims to provide customers and potential customers with Test Methodologies and Subject Matter Expertise in the rapidly growing field of GNSS testing. He is also leading several projects aimed at approving GNSS simulators for use in GNSS certification test standards and related activities.
