

Captain Roger Barker

Roger Barker joined Trinity House in July 2005 as Navigation (Examiner) Manager. Roger has worked in the Marine industry since he was 16 years old as a Deck Cadet with P&O, progressing his way through the ranks with United Baltic Corporation and Andrew Weir to Master, serving on vessels operating principally in the Baltic trades although completing many worldwide voyages.

Before moving to Trinity House he was asked to come ashore and take over as Marine Superintendent at Andrew Weir Shipping Limited, advising on all nautical matters within the fleet.

During his time both afloat and ashore he has been closely involved with several new buildings, and has taken particular interest in the development of integrated bridge systems and new technology in general.
