EC DG TREN / Helios Technology European Radio Navigation Plan

#### European Radionavigation Plan

The EC Directorate General for Energy and Transport (DG TREN) has recently awarded a contract to a team led by **Helios Technology** to contribute to the development of a **European Radionavigation Plan (ERNP)** and to support European radionavigation policy. The team comprises Telematica of Germany, General Lighthouse Authorities of the United Kingdom and Republic of Ireland, INECO of Spain and the University of Leiden from the Netherlands.
